GOODWE

Safe and flexible LV battery system for PV power self-consumption and back-up

Maximised power back-up

Smart and efficient operation

Highest safety standards Modern and compact design

Featuring lithium iron phosphate (LFP) battery technology for enhanced safety and reliable performance, GoodWe's low-voltage (LV) Lynx Home U Series has been specially designed for residential applications. The system is optimised for self-consumption and back-up of solar power, while the convenient plug-and-play design allows for easy installation. Compatible with GoodWe ES/EM/SBP inverters, the modular battery system is scalable in the range from 5.4 to 32.4kWh.

Reliable LFP battery cell

High battery cycle stability

Remote diagnosis and update via inverter

Lynx Home U Series

*1: Test conditions, cell Voltage 2.5 ~ 3.65V, 0.5C charge & discharge at +25 ±2°C for battery system at beginning life. System Usable Energy may vary with different Inverter. *2: Nominal Dis- / Charge Current and power derating will occur related to Temperature and SOC. *: Please visit GoodWe website for the latest certificates.
